GRADING SYSTEM

Component of evaluation

Internal Evaluation (project, presentation, viva) - Total of 40 Marks

External Evaluation - Total of 60 Marks

KPMSOL follows the following ‘letter grades’ and corresponding ‘grade points’ system:

Grade	Grade Point
A+	4.00
A	3.75
A-	3.50
B+	3.25
B	3.00
B-	2.75
C+	2.50
C	2.25
C-	2.00
F	0.00

The difference between the maximum marks and pass marks is calculated and divided into slabs of nine letter grades (i.e. A+, A, and A-, B+, B and B-and C+, C and C-). Grading is done on the basis of marks obtained by a student in each subject which is thereafter fitted into the above slabs of letter grades.

Calculation of Grade Point Average (GPA)

Grade Point Average for a term is computed by dividing, the sum of product of grade point of each course/ module and credit value assigned, to each respective course by the sum of credits assigned to all the courses/ modules for the related term.

$$GPA = \frac{\sum CG}{\sum C}$$

C = Credit value assigned to a course/ module

G = Grade point value assigned to a student for course/ module corresponding to the letter grade
